Cody Cardon, Business Administrator, summarized the executive summary which explained.
To measure accountability, our City uses several separate funds. A fund is a fiscal and accounting entity with self-balancing set of accounts segregated for the purpose of carrying on specific activities for attaining certain objectives in accordance with regulations, restrictions, or limitations. Our City is in reality a combination of several distinctly different fiscal and accounting entities, each having a separate set of accounts and functioning independently. We are required by Utah Code and governmental accounting standards for services provided by a utility enterprise fund to another fund to estimate or calculated the value of said services at the same rate as other similar customers of the utility.

The City has calculated and estimated the value of water utility services utilized by its General Fund to be $80,000 for fiscal year 2020. This nonreciprocal interfund transfer amount is comprised of water utilization at all City buildings, other facilities, and exterior watering of parks and other City owned property.

Utah Code 10-5-107 and 10-6-135 requires that the City hold a public hearing and notify all utility customers before an interfund transfer is made. This hearing fulfills that requirement.

No public comments were made.

MOTION: Councilmember Hansen moved to close the public hearing. Councilmember Arnold seconded the motion.

Mayor Searle invited discussion regarding the motion. There was no discussion regarding this motion.

MOTION: Councilmember Arnold moved to approve Resolution 2019-22, accordance with Utah Code 10-5-17 and 10-6-135, regarding the nonreciprocal interfund activity transfer of resources utilized by the General Fund and provided by the Water Fund. Councilmember Hansen seconded the motion.

Mayor Searle invited discussion regarding the motion. There was no discussion regarding this motion.

City Council
Executive Summary

For the Council meeting on: 9-17-2019
Petitioner: Mike Loughton (via public commentary)

Summary of Proposed Action

During the City Council meeting on July 16, 2019, public commentary was provided by resident Mike Loughton regarding the swimming pool ordinances, as found in Title 10, Chapter 14, Section 11. During his commentary he requested that the City reevaluate the setback requirement for the location of a swimming pool on a residential dwelling lot. He requested that the City consider changing the setback standard from 7 feet to 5 feet from any interior property line.

At the conclusion of his commentary, the Council was asked for a consent vote to decide if this would be a matter for further discussion in the future. On August 6, 2019, the City Council briefly discussed this request, and at the conclusion of the discussion in the matter, the Council by consent vote sent this matter to the Planning Commission for discussion and review.

On August 13, 2019, this matter was set for a public hearing and to be reviewed by the Planning Commission. The public hearing regarding this proposed code amendment was posted and advertised in accordance with State Code. No public comments were provided before nor during the public hearing portion of the meeting. At the conclusion of the public hearing, the Planning Commission approved a motion to submit the amended swimming pool ordinance (with a small change) to the City Council for final approval consideration. Therefore, this matter is now before the City Council for final approval consideration of the proposed language amendment to Title 10, Chapter 14, Section 11 regarding swimming pool setback standards.

Following discussion of the matter, the City Council may take action to approve the proposed City Code change to the swimming pool ordinance (as found in Title 10, Chapter 14, Section 11), approve the proposed code changes with recommended modifications, table the matter to allow more time to gather additional information, or not approve the proposed City Code change to the swimming pool ordinance, subject to a presentation of the appropriate findings of facts to support the conclusion. Should this approval be provided, then this code amendment would be memorialized and established per ordinance.

Title 10 Ordinance Guidelines (Code Reference)

Swimming Pool, Swim Spa, and Hut Tubs for Family requests are regulated under City Code Title 10, Chapter 14, Section 11. A copy of this code is included herein below for your use and review:

10-14-11: SWIMMING POOL, SWIM SPA AND HOT TUB, FAMILY:

A family above or in ground swimming pool, swim spa and hot tub shall be permitted in the rear yard of a dwelling as an accessory use, provided the following requirements are met:

A. Location: The location of such family swimming pool, swim spa, hot tub or accessory machinery shall not be less than seven feet (7') from any interior property line or if an easement exists on the property the pool, spa or tub must be completely off the easement. On corner lots, the distance from said pool to the
property line facing on a street shall not be less than the required side yard for an accessory building in that zone.

B. Enclosure; Lighting: An outside family swimming pool shall be completely enclosed by a substantial fence of not less than six feet (6') in height and any lights used to illuminate said pool or its accessories shall be so arranged as to reflect the light away from the adjoining premises.

C. Pool Covers: In addition to the setback and fencing requirements set forth herein, it is strongly recommended that pool owners utilize pool covers that comply with the most current personal liability insurance standards.

D. Side Yard Location: If a property has sufficient side yard to accommodate a pool, spa or hot tub in meeting all of the above requirements while also maintaining the required side yard setback (from property line to any portion of the structure) for the zone it is located in, then the pool, spa or hot tub may be located in the side yard. (Ord. 818, 10-2-2012)

City Staff commentary and research findings have also been included in your packet regarding the existing Riverdale City swimming pool standard and the standards established within other neighboring cities.

Staff would encourage the City Council to discuss this matter and then take appropriate action to approve the proposed City Code change to the swimming pool ordinance (as found in Title 10, Chapter 14, Section 11), approve the proposed code changes with recommended modifications, table the matter to allow more time to gather additional information, or not approve the proposed City Code change to the swimming pool ordinance, subject to a presentation of the appropriate findings of facts to support the conclusion.

Mike, my concern with reducing the pool setback would be if a utility company needed to dig in the right of way it could compromise the pools foundation.

He also stated to me in a conversation that he sees there being a concern if a utility provider or other subgrade provider on the residential property would need to dig a trench. Having a pool that close to the property line would make it difficult to maintain a 45 degree angle in the trench to adequately maintain and support the existing pool structure and wall from within the trench. Otherwise, he felt the
current standard could only otherwise be justified due to possible noise, lights, and other potential complaints from surrounding property owners in proximity to the pool edge and location.

Mike-

I have no concerns with amending this code.

RW

From: Mike Eggett  
Subject: Swimming Pool code change proposal

I tend to echo pretty much all of Jeff’s comments. I also would add that the standard public utility easement (PUE) in Riverdale City for many years was set at 7 feet. It could be that this standard of 7 feet was originally established in an extra effort to further keep the pool location off of the PUE in future subdivisions after the date of the 7 feet setback standard being established. This would create a code redundancy that was an effort to keep pools away from having conflicts with the PUE in subdivisions on residential lots.
Research Code Change Request – Swimming Pools in South Ogden, Washington Terrace, and Roy City

South Ogden City

- Talked with Building Inspector Jeff Barfuss and City Recorder Leesa Kapetanov on 8/22/2019 at 10:35 AM: Swimming pool setbacks standard have not changed in South Ogden City, refer back to South Ogden city ordinance; Council never considered an ordinance change request, only more recently discussed a measurement location concern to the pool on a specific pool issue on a resident’s property; always has been measured at 10 feet from property line to water’s edge or pool equipment structure.

- **City Code:**
  **10-14-12: SWIMMING POOL, FAMILY:**

  A family swimming pool shall be permitted in the rear yard of a dwelling as an accessory use, provided the following requirements are met:

  **A. Location:** The location of such family swimming pool or accessory machinery shall not be less than ten feet (10') from any interior property line. On corner lots, the distance from the pool to the property line facing on a street shall not be less than the required side yard for an accessory building in that zone.

  **B. Enclosure:** An outside family swimming pool shall be completely enclosed by a substantial fence of not less than six feet (6') in height and any lights used to illuminate said pool or its accessories shall be so arranged as to reflect the light away from the adjoining premises. A substantial fence shall mean any fence that would not allow passage by any person and one that would feature a self-locking gate if a gate is utilized. (Ord. 17-23, 11-21-2017, eff. 11-21-2017)

Washington Terrace City

- Jeff Monroe discussion at 10:50AM on 8/22/2019: he stated there used to be 10 foot setback standard for a pool; Mayor requested the pool standard be investigated and possibly changed to fit a pool on the lot to 5 foot due to a residential complaint; originally 10 feet pool setback tied to the public utility easement (PUE) on the property; code amendment to 5 feet was approved by the City Council; some houses are allowed per zoning standards within 5 feet in the city and so why not allow a pool at that time to be set back to 5 feet; was approved with understanding 5 feet from pool structure to property line; still needs 6 foot fencing surrounding pool structure; was approved a few years ago in end of 2015; no complaints so far relative to nuisances with pools, with the exception of Air BNB locations on a few occasions – ordinance passed to regulate Air BNB hours for use of pool, hot tubs, spas (no noise from pool facility after 11pm).

- **City Code:**
  **17.48.010 Family Swimming Pools**
A family swimming pool shall be permitted in the rear of a dwelling as an accessory use provided the following requirements are met:

1. A swimming pool may cover the area within a rear yard and not located within an easement unless the construction of that pool would require the need to vary from existing ordinance. A variance for the pool to be allowed to be constructed on the easement would need to be obtained.

2. The pool or spa may not be closer than five (5) feet to the property line measured at water’s edge.

3. Minimum setback requirements from property lines are as follows:
   1. Front Yard: No pool allowed within a front yard.
   2. Rear Yard: Five feet (5’) Min.

   4. Easement: Setbacks shall comply with all easement regulations.

10-14-11: SWIMMING POOL, SWIM SPA AND HOT TUB, FAMILY:

A family above or in ground swimming pool, swim spa and hot tub shall be permitted in the rear yard of a dwelling as an accessory use, provided the following requirements are met:

A. Location: The location of such family swimming pool, swim spa, hot tub or accessory machinery shall not be less than seven and five feet (7'5") from any interior property line as measured to the water’s edge or if an easement exists on the property the pool, spa or tub must be completely off the easement. On corner lots, the distance from said pool to the property line facing on a street shall not be less than the required side yard for an accessory building in that zone.

B. Enclosure; Lighting: An outside family swimming pool shall be completely enclosed by a substantial fence of not less than six feet (6’) in height and any lights used to illuminate said pool or its accessories shall be so arranged as to reflect the light away from the adjoining premises.

C. Pool Covers: In addition to the setback and fencing requirements set forth herein, it is strongly recommended that pool owners utilize pool covers that comply with the most current personal liability insurance standards.

D. Side Yard Location: If a property has sufficient side yard to accommodate a pool, spa or hot tub in meeting all of the above requirements while also maintaining the required side yard setback (from property line to any portion of the structure) for the zone it is located in, then the pool, spa or hot tub may be located in the side yard.
