G. Action Items

1. Consideration of Ordinance 909 to approve a rezone request for properties located approximately 690 W. 4400 S., Riverdale, Utah; a zoning change from Single-Family and Single-Family with Rental Unit Residential (R-2) to Multiple-Family Residential (R-5); requested by Daniel Phelps.

Mayor Searle introduced the action item being requested by Mr. Daniel Phelps, the petitioner in this matter. Mr. Phelps, is requesting a rezone of property located at approximately 690 West 4400 South from Single-Family and Single-Family with Rental Unit Residential (R-2) zoning to Multiple-Family Residential (R-5) zoning to allow for possibility of the future development of an independent living residential structure and supporting facilities (see the application documents for further explanation). Neighboring properties to the north and east are already zoned with an R-5 zoning. This request is for approximately 0.36 acres of land located on two properties on the corner of 700 West and 4400 South.

Mr. Worthen excused Mr. Eggett from the discussion as he is out of town for training. Mr. Worthen described the rezone petition from R-2 to R5 as requested by Mr. Phelps. Mr. Worthen described further the need for various types of housing that benefits the residents of the community. Differing housing types benefits a healthy work force and other housing needs for different demographics. Councilmember Ellis questioned Mr. Phelps on the plan for the future development of the property. Mr. Phelps described that he would like to do an Independent Living facility similar to the Riverdale Sr. Center on 900 West that is currently operated by the City’s Redevelopment Agency. Mr. Phelps described the need for independent living and handicap living facilities and that there are many people waiting for the type of housing he would be proposing to construct on the property. Councilor Ellis asked how many dwelling units Mr. Phelps is looking to construct. Mr. Phelps indicated that with limited property space and parking area he would be considering 20-30 units. Parking would be the limiting factor for the number of dwelling units.

Councilor Ellis asked Mr. Phelps about the vehicle access and to consider a cross-access ability between the properties. Mr. Phelps described limiting the access onto 4400 south and having an eastern access point. He indicated limiting the access points for safety reasons would be best when the design of the site is considered. Councilor Ellis thanked him for that consideration and is looking forward to seeing the submitted site plan in the future. Mr. Phelps described the connection with staff at Stoney Brooke assisted care living to the new proposed facility that would be constructed on this property.

Councilor Mitchell asked if Mr. Phelps is considering a building taller than two-stories. Mr. Phelps indicated nothing larger than two stories due to ADA requirements and potential elevator use. Councilor Mitchell requested information about the parked cargo trailer on the property. Mr. Phelps indicated the trailer will be removed in the future.

Mayor presented this agenda item to the council and asked for a description of the site plan application from City Administrator Worthen. This is the property formerly occupied by the Chevron Gas station at 300 West Riverdale Road. Mr. Worthen indicated the site is proposed for demolition and future construction of retail and restaurant pads. The item was favorably recommended to the City Council by the City Planning Commission on June 11th, 2019. Eric Malmberg from AWA Engineering was presented to the Council for any further questions or discussion. Councilor Ellis questioned the cross-access with John Paras furniture store to the South of the proposed site. Mr. Ellis asked the width of the access; Mr. Malmberg indicated the access is designed for 36-feet wide, enough for two-vehicles. Mr. Ellis also asked about how the grade between the two properties would be designed. Mr. Malmberg described the height of the retaining wall on the proposed new site; the wall will be continued at less than three feet or smaller. The grade break for vehicles will all be on DRH property and constructed to allow vehicle movement. Parking stalls were also discussed with council and if any would be eliminated on the John Paras furniture site. ROLL CALL VOTE: Councilmembers Arnold, Hansen, Stevens, Ellis and Mitchell all voted in favor of the motion.

Mayor Searle introduced the action item and requested input from City Attorney Stevin Brooks. Mr. Brooks explained the reason for this personnel policy change is part of a new State Code that requires entities to identify in policy what public items or property owned by the City could be used by City Employees. Councilor Ellis asked for the reasons why the State of Utah created the new law. Mr. Brooks indicated the reason it came to be was from activities of other entities and their employees using various public property items brought about complaints from citizens. Mr. Brooks provided example in which another county jurisdiction allowed employees to use ATV’s on personal time to keep the vehicles in a state of readiness. This decision by the county (in the example presented) brought complaints from citizens to the state legislative body. The new legislative bill requires political subdivisions of the state to identify what City employees can do with public property.

The personnel policy amendment reads as such:

“City-owned property is public property and is to be used for the benefit of the public. First and foremost, City employees are to use City-owned property to achieve the purposes of the City. Notwithstanding the foregoing, incidental and occasional personal use of city owned property is permitted unless such use is otherwise prohibited by policy/code or the use creates a more than de Minimis cost to the City, at which time the employee shall reimburse the City for the cost of personal use. If City-owned property is damaged during such personal use and must be repaired or replaced, the employee shall pay the cost of repair or replacement.”

H. Discretionary Items

Mayor Searle asked for any discretionary items. Councilor Hansen inquired about the recent Taxing Entity Committee meeting in May. Mr. Worthen described that the discussion of the TEC was to request more time on the “trigger date” of utilizing the tax increment. The members of the committee desired to consult their respective boards for such an extension and the RDA staff is working on this direction. Secondly, the TEC members wanted to receive updates on the Rocky Mountain Power cost estimate of relocation of the power lines. Mr. Worthen checked with Rocky Mountain Power and confirmed with the power company that the previous estimates are in alignment with costs, depending on design of relocation. Overall, the TEC meeting was favorable and City RDA staff will be meeting with school district officials again in the month of July this year.
