Planning Commission Regular Meeting, June 28, 2016

Mr. Eggett summarized an executive summary which explained:

Recently, City Staff has been approached by interests, regarding various properties throughout the City and City ordinances that are impacting those properties. In addition, the State Legislature has passed a bill updating the building codes for the State and, as a result, the City needs to update these building codes. Finally, there have been some issues in the past relative to site plan approvals and final subdivision approvals relative to the timing of the project's vesting rights/viability. As a result of these three above-noted matters, a packet of information has been provided to discuss suggested code revisions relative to the above-noted matters. In order to consider amending the City Code, Utah State Law requires that we hold a public hearing regarding proposed changes to the City Code. Therefore, a public hearing has been set for tonight to consider these proposed Code changes, and advertised accordingly to the public per State Law.

Following the public hearing, the Planning Commission should discuss the proposed language amendments and then determine how to proceed.
