Title 10-15-3 PARKING SPACE FOR NON-DWELLING BUILDINGS

Proposed language addition

When a property or properties are part of a business / retail center development that has a reciprocal agreement that pertains to parking or cross access, the City may consider the entire developments parking availability rather than calculating the parking requirement for individual business uses. Parking / land that is not part of the individual businesses property may be included as meeting the parking requirement if there is a reciprocal agreement for parking within the business center.
