

## MAYOR'S CORNER

**Let's talk about housing.** As many of you know, Utah is facing a significant housing shortage, and Riverdale is not immune to the challenges that come with it. Finding affordable and suitable housing has become increasingly difficult for families, young professionals, and retirees alike. To ensure our community remains vibrant, welcoming, and prosperous, we must take a proactive approach by supporting a wide range of housing options.

A well-balanced community offers a variety of housing types to meet the needs of all residents. That means looking beyond traditional single-family homes and embracing multi-family residences, townhomes, apartments, and accessory dwelling units (ADUs). By expanding our housing options, we can accommodate individuals and families at different stages of life, provide opportunities for our workforce to live where they work, and create a more resilient local economy.

Affordable and diverse housing benefits everyone. Young professionals and new families need entry-level housing that allows them to plant roots and contribute to our City's growth. Seniors who wish to downsize should have options that allow them to stay in the community they love. Teachers, first responders, and service workers deserve housing opportunities within a reasonable distance of their workplace.

Riverdale has always been a place where neighbors look out for one another. Time after time, I have heard from Riverdale families that they would love to have housing options that allow young adults to remain nearby as they progress through life. Thoughtful planning, community input, and responsible development can ensure that we grow in a way that respects the needs of our current residents. I encourage all of you to stay engaged in local discussions about housing, share your thoughts, and support initiatives that will help us create a balanced, thriving community for generations to come.

Riverdale currently has several different projects approved that will take shape this next year. We are excited to see them come together and help mitigate the current housing shortage

### "What's the Mayor singing now?"

The song that was intentionally put in the February newsletter was "It Was A Good Day" by Ice Cube. The winning guess came from James Simone. Somewhere in the Mayor's Message will be the **title** of a song. For clarity, it will always be at least 3 words. If you think you know what it is, send an email with the title of the song and the artist to [bmitchell@riverdalecity.com](mailto:bmitchell@riverdalecity.com) by March 10th. A winner will be drawn and awarded a gift certificate to Champion Meats..

## Riverdale City Residents

### Spring Code Enforcement

It's that time of the year again when spring is approaching fast. Riverdale is one of the most desirable places to live, work and shop in all of Weber County. Residents of Riverdale City take pride in their homes and work hard to keep them safe and clean. We ask all residents to "do your part" to police our homes for overgrown weeds and vegetation. Use water wisely to maintain our lawns and planters. Install drought resistant vegetation wherever possible, and as always keep your home free of trash and accumulation of unsightly debris.

Code Enforcement will be out in the community, reminding residents to maintain their property according to Riverdale City Ordinances and ensuring that our city is attractive to not only our residents, but visitors as well. Some of you may receive a door hanger as a warning to please maintain your property to stay compliant with Riverdale Ordinance 4-5-3 Section B33 "Unmanaged Growth" of weeds and vegetation. Code Enforcement will enforce the City Ordinance up to a citation as a last resort. However, we strive to attain compliance through cooperation with all our residents and businesses.

Should you have any questions or comments, please feel free to contact Code Enforcement Officer Steve May at (801)394-6616. I look forward to being of service to you.
